

COVID-19 Pandemic – United States Shelter-in-Place / Reopening Tracker

COVID-19 Pandemic – United States Shelter-in-Place / Reopening Tracker

Shelter-in-place or stay at home orders have been prevalent throughout the United States since March 2020 as state and local governments have sought to protect their citizens from the spread of the COVID-19 virus. With the spread appearing to slow, several states are now implementing plans to revise and scale back these orders to re-open their economies. Keeping abreast of the evolving nature of these orders and plans is critical to the functioning of all businesses throughout the country.

Baker McKenzie has a team in place that has been advising clients real-time on these most critical issues since the first orders were enacted. We are pleased to provide this Tracker, which identifies the relevant state-wide shelter-in-place orders and their related expiration dates, as well as the applicable state-wide reopening plans, in each of the 50 United States plus Washington, D.C. The “What’s Open” table on each page highlights the reopening status of four major sectors (office, manufacturing, retail and bars/restaurants).

In addition, the Tracker includes links to the relevant quarantine requirements or recommendations for incoming travelers in each state plus Washington, D.C.

Please check back for regular updates.

Please call or email your regular Baker McKenzie contact if you require additional analysis regarding these matters.

Updated as of November 6, 2020
